HYDROBIOLOGICAL JOURNAL

VOLUME 20

CONTENTS FOR 1984

NUMBER 1

GENERAL HYDROBIOLOGY

M.A. Kuznetsova, O.V. Orlova and A.B. Savinov: Aggregates of Organic Substances in Fresh Waters and Their Role in the Feeding of Filter-Feeding Crustaceans 1

Yu.S. Chuykov and A.A. Strogonov: Interrelationships Between Several Components of the Plankton Community and the Content of Phosphates and Oxygen in the Water 8

B.I. Novikov and V.V. Arendarchuk: Hydrological Conditions of the Wintering of *Microcystis aeruginosa* in Kremenchugskoye Reservoir 17

R.A. Liyepa: The Influence of Nutrient Elements on the Formation of Communities of Infusoria 22

FISHERIES HYDROBIOLOGY AND ICHTHYOLOGY 26

E.L. Orlova and G.K. Azhigaliyeva: Food Availability and Growth of Pike in the Volga Delta 26

SANITARY HYDROBIOLOGY AND HYDROPARASITOLOGY

K. Veber, V. Votapek, K. Livanskiy, Ya. Zagradnik and B. Prokesh: Growth of *Chorella vulgaris* in Wastewater 32

A.V. Gayevskaya, and A.A. Kovaleva: Crustacea of Genus *Sphyrion* (Copepoda, Sphyriidae) in Atlantic Fishes 41

ECOLOGICAL PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC PLANTS AND MICROORGANISMS

V.I. Mironyuk, N.P. Masyuk and O.V. Sapura: Osmotic Pressure in Cells of Certain Oligo- and Hyperhalobic Algae and in Their Surroundings 47

G.A. Inkina, O.N. Savel'yeva, and O.M. Itkina: Microflora of Bottom Sediments of Lake Naroch' 51

ECOLOGICAL PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC ANIMALS

O.M. Arsan, V.D. Solomatina, and V.D. Romanenko: The Role of Dissolved Phosphorus in Regulating Bioenergetic Processes in Fish 55

AQUATIC TOXICOLOGY AND RADIOECOLOGY

L.I. Chuprina, S.I. El'baum, L.I. But, N.I. Avdeyeva, and N.I. Mikhalova: Toxicity of Condensate from Production of P-520 Polyester to *Daphnia magna* and its Effect on Self-Purification 60

L.A. Radchenko: Effect of Temperature on Post-Radiation Survival of *Artemia salina* 64

HYDROLOGY AND HYDROCHEMISTRY

V.M. Timchenko and P.V. Sipchenko: Relationship of Water Clarity to Content of Suspended Matter in Large Rivers and Water Bodies of the Ukraine . . 68

P.N. Linnik: Forms of Copper in Fresh and Brackish Water 72

NUMBER 1

GENERAL HYDROBIOLOGY

M.A. Kuznetsova, O.V. Orlova and A.B. Savinov: Aggregates of Organic Substances in Fresh Waters and Their Role in the Feeding of Filter-Feeding Crustaceans 1

Yu.S. Chuykov and A.A. Strogonov: Interrelationships Between Several Components of the Plankton Community and the Content of Phosphates and Oxygen in the Water 8

B.I. Novikov and V.V. Arendarchuk: Hydrological Conditions of the Wintering of *Microcystis aeruginosa* in Kremenchugskoye Reservoir 17

R.A. Liyepa: The Influence of Nutrient Elements on the Formation of Communities of Infusoria 22

FISHERIES HYDROBIOLOGY AND ICHTHYOLOGY 26

E.L. Orlova and G.K. Azhigaliyeva: Food Availability and Growth of Pike in the Volga Delta 26

SANITARY HYDROBIOLOGY AND HYDROPARASITOLOGY

K. Veber, V. Votapek, K. Livanskiy, Ya. Zagradnik and B. Prokesh: Growth of *Chorella vulgaris* in Wastewater 32

A.V. Gayevskaya, and A.A. Kovaleva: Crustacea of Genus *Sphyrion* (Copepoda, Sphyriidae) in Atlantic Fishes 41

ECOLOGICAL PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC PLANTS AND MICROORGANISMS

V.I. Mironyuk, N.P. Masyuk and O.V. Sapura: Osmotic Pressure in Cells of Certain Oligo- and Hyperhalobic Algae and in Their Surroundings 47

G.A. Inkina, O.N. Savel'yeva, and O.M. Itkina: Microflora of Bottom Sediments of Lake Naroch' 51

ECOLOGICAL PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC ANIMALS

O.M. Arsan, V.D. Solomatina, and V.D. Romanenko: The Role of Dissolved Phosphorus in Regulating Bioenergetic Processes in Fish 55

AQUATIC TOXICOLOGY AND RADIOECOLOGY

L.I. Chuprina, S.I. El'baum, L.I. But, N.I. Avdeyeva, and N.I. Mikhalova: Toxicity of Condensate from Production of P-520 Polyester to *Daphnia magna* and its Effect on Self-Purification 60

L.A. Radchenko: Effect of Temperature on Post-Radiation Survival of *Artemia salina* 64

HYDROLOGY AND HYDROCHEMISTRY

V.M. Timchenko and P.V. Sipchenko: Relationship of Water Clarity to Content of Suspended Matter in Large Rivers and Water Bodies of the Ukraine . . 68

P.N. Linnik: Forms of Copper in Fresh and Brackish Water 72

PROCEDURE

A.G. Andrushaytis, A.Kh. Avents, and G.K. Seysuma: A Design for *in situ* Ecotoxicological Experiments 79

TRIBUNE OF A YOUNG RESEARCHER

N.V. Khominskaya: Removal of Microalgae and Other Suspended Particles from Water (a Review) 86
V.M. Tsarenko: Characteristics of Extracellular Accumulation of Organic Acids in Some Species of Algae 93

BRIEF COMMUNICATIONS

P.M. Voronov: Effect of Sodium Compounds on Hatching and Survival Rates of *Artemia salina* 99
Ye. N. Bogdanova and V.D. Bodganov: Larval Feeding of Broad Whitefish and Tugun Under Natural Conditions 102

NUMBER 2

GENERAL HYDROBIOLOGY

T.M. Mikheyev and T.A. Makarevich: Kinetics of Growth and Mortality of Populations of *Asterionella formosa* and *Cyclotella comta* in a Mesotrophic Lake 1
G.V. Berdysheva and A.P. Vasil'chikova: Production of Phytoplankton in Lake Shartash 8
R.A. Liyepa: Classification of Latvian Lakes Based on Species Composition of Infusoria 12
I.Kh. Alekperov: Free-Living Infusoria of Khachinchay Reservoir . . . 17
A.I. Pashkevich: Calculation of Abundance, Biomass, Production and Ration of Zooplankton Using an EVM 23
M.P. Miroshnichenko: Trophic Structure of Benthic Biocenoses in Tsimlyanskoye Reservoir 29
A.P. Stadnichenko and Yu.A. Stadnichenko: Fauna and Ecology of Freshwater Mollusks (Gastropoda, Bivalvia) of the Ukrainian Poles'ye . . 38

AQUACULTURAL HYDROBIOLOGY AND ICHTHYOLOGY

I.P. Komarov and L.M. Knyazeva: Effect of Vitamin C-Enriched Granulated Feed on the Physiological State of Spawning Rainbow Trout . . 43
V.A. Tkachenko and A.N. Voloshkevich: Formation of Ichthyofauna of Sasykskoye Reservoir Under Conditions of Desalinization 49

ECOLOGICAL PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC PLANTS

V.N. Kozitskaya: Inhibitory Substances Produced by Some Cyanophytes . 53

AQUATIC TOXICOLOGY AND RADIOECOLOGY

K.V.-Balogh and J. Salanki: Utilization of Crustacean Zooplankton for Estimating Heavy Metal Pollution in Lake Balaton 58
V.N. Kavetskiy, A.I. Karnaukhov and I.M. Paliyenko: Content of Heavy Metals in Water and Some Aquatic Plants of the Danube and Dniester Estuaries 67
V.F. Brekhovskikh and I.A. Korneyev: Influence of Artificial Aeration on Hydrodynamic Processes in a Stratified Lake 71
A.V. Parkhomenko: Application of Phosphorous-32 for Estimating Retention Capacity of Membranous Filters in Experiments With Microplankton 78
A.A. Protasov and S.A. Afanas'eva: Device for Observation of Several Invertebrates of Periphyton and Benthos 81
M.A. Movchan: Suction-Type Scraper for Quantitative Calculation of Protozoans in Fouling Communities 83

N.I. Kirpenko: Utilization of AF-1 Apparatus for Quantitative Determination of Toxins in Blue-Green Algaes 85
V.N. Kondakov, S.K. Tonkiy and N.V. Khominskaya: Condensation of Sestonic Hydrobiomass 87
L.V. Bortkevitch, N.N. Khmeleva and N.I. Sadovskaya: Ecological Characteristics, Caloric Value and Production of *Corophium robustum* (Amphipoda, Corophiidae) from the Lower Dnieper 93
I.V. Kryzhanovskiy: Fecundity Dynamics of Bream, *Abramis brama*, from Kremenchug Reservoir 100
V.A. Kundiyev: Peculiarities of Pigmentation and Morphology of Fish Larvae from the Middle Dnieper 102

NUMBER 3

ON THE 175th ANNIVERSARY OF DARWIN'S BIRTH

G.L. Shkorbatov: The Species Problem and Hydrobiology 1

GENERAL HYDROBIOLOGY

N.I. Tamrazova, A.F. Sokol'skiy, and K.V. Gorbunov: Principles of Phytoplankton Formation in Water Bodies Managed for Fisheries 9
Yu.N. Makarov: Distribution and Dynamics of Abundance of *Artemia salina* in Kuyal'nitskiy Lagoon 16
N.V. Aladin and N.I. Andreyev: The Influence of Salinity of the Aral Sea on Composition of Cladoceran Fauna 22

FISHERIES HYDROBIOLOGY AND ICHTHYOLOGY

G.D. Berdyshev, P.S. Vovk, V.F. Bezrukov, V.R. Alekseenko, and S.N. Karapunov: Prospects for Development of Genetics and Selection in Herbivorous Fishes 28

SANITATION HYDROBIOLOGY AND HYDROPARISITOLOGY

V.P. Lozanskiy: On Methodological Principles of Ecological Classification of Quality of Land Surface Waters 38
A.V. D'yachkov: On the Necessity of Establishing a Universal Classification of Water Quality 42
R.P. Zhupanenko: Evaluation of Saprobicity of Some Small Reservoirs of the Ukraine, Based on Phytoplankton 45
A.V. Gayevskaya and A.A. Kovaleva: Addition to the Myxosporidia Fauna (Protozoa: Myxosporidia) of Fishes of the Northeast Atlantic 49

ECOLOGIC PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC PLANTS

V.N. Kozitskaya: Phenolic Compounds of Algae and Their Physiological Role (Review) 54

ECOLOGIC PHYSIOLOGY AND BIOCHEMISTRY OF AQUATIC ANIMALS

N.Yu. Yevtushenko, V.D. Romanenko, and T.D. Malyzheva: Effect of Zinc on Metabolism of Radiocarbon in Lipids of Carp Liver 64

HYDROLOGY AND WATER CHEMISTRY

B.I. Novikov: Some Results of Desalination of Mud Deposits in Sasyk Lagoon 67
Yu.L. Semenov: N/P and Si/P Ratios in the Central and Southern Caspian Sea 71

METHODS

L.A. Sirenko, A.I. Denisova, Ye.P. Nakhshina, A.K. Ryabov, V.A. Medved', V.M. Shamkov, A.G. Ivakhnenko, B.K. Svetal'skiy, A.P. Sarychev, and I.K. Timchenko: Modeling and System Analysis of Individual Components of the Kakhovskoye Reservoir Ecosystem Based on Self Organization 74

V.A. Popel'nitskiy, V.M. Gol'd, N.A. Gayevskiy, and Z.G. Gol'd: A Submersible Inductometer-Fluorimeter for Determining Fluorescent Intensity and Functional State of Photosynthesizing Phytoplankton 85
A.V. Parkhomenko: Determination of Low Level Concentrations of Inorganic Phosphorus in Seawater by Means of ^{32}P 90
N.F. Kashina: Purification and Tertiary Treatment of Amino-Containing Sewage by Means of Aquatic Plants 94

BRIEF COMMUNICATIONS

V.M. Sidoreinko, I.M. Velichko and A.L. Novak: Periphyton as a Factor in the Hydrochemical Regime in Stands of Macrophyte Vegetation Higher Water Plants 99

NUMBER 4

V.V. Polishchuk: On a Significant Late Holocene Rise in the Level of the Black Sea, and the Origin of Northern Elements in Its Fauna 1
N.S. Yalynskaya, O.R. Ivanets, and I.T. Oleksiv: Study of Structure of a Planktonic Community with the Aid of Inclusion Measures 12
A.A. Andryushchenko and O.M. Makarov: An Iteration Method for Calculating Cause-and-Effect Relations in a Multiple-Measured Linear Model for a Marine Ecosystem 19
M.A. Belova and V.V. Bul'yon: Bacteria Content in Seston of Mongolian Lakes 28
V.N. Kozitskaya: Effect of Phenolic Compounds on the Development of *Microcystis aeruginosa* 34
V.I. Bykovskiy: Characteristics of Water Flow and the Reproduction of Algae 41
Yu.D. Konovalov: Binding of Dyes by Carp Embryonic Cells under the Effect of Sulphates and Chlorides 47
V.I. Kozlovskaya, F.L. Mayer, and J.D. Petti: Acetyl Cholinesterase Activity in the Brain and Collagen Content in the Vertebra of Goldfish Exposed to Chlorofos 54
M.C. Das and A.K. Shrivastava: Fish Mortality in Naini Tal Lake (India) due to Pollution and Parasitism 60
A.G. Kasymov and N.F. Likhodeyeva: Oil Accumulation by Molluscs 65
S.N. Garanina: Effect of Heavy Metals of Some Aspects of Carbohydrate Metabolism in Caspian Sea Gammarids 69
V.V. Semakov and L.A. Sirenko: Toxicity of Some Blue Green Algae on Some Insect Larvae 72
V.M. Timchenko: Suspended Sediment from the Danube in the Danube-Dnepr Water Diversion System 76
V.P. Gorbik: A Method for Studying Seed Production of *Typha angustifolia* and *T. latifolia* 88
S.K. Svetasheva: Uptake and Excretion of Chemical Forms of ^{131}I by Marine Macrophytes 90
M.S. Savich and G.P. Mashtakova: Nature of Development of Phytoplankton in the Sodruzhestvo Sea Region 94
R.R. Makarov: Distribution Pattern of Phytoplankton in the Lazarev Sea . . 101

NUMBER 5

A.A. Protasov: Investigation into Freshwater Periphyton in the Soviet Union 1
N.S. Kharkevich, A.V. Sabylina, M.I. Basov, I.G. Vaslyanskaya, E.A. Klyukina, and A.V. Freyndling: Abiotic Factors and Primary Production of Lakes of the Kovda River Basin 15
E.P. Bityukov: Horizontal Heterogeneity in a Bioluminescent Field as an Index of Aggregate Distribution of Plankton 23
N.G. Teplinskaya: Microflora of Black Sea Sponges 31
I.N. Krylova: Intensity of Denitrification in the Bottom of Rybinsk Reservoir 35
R. Erben: Accumulation of Phenol by Isopods 42
D.I. Stom, A.E. Balayan, N.Z. Kobzhitskaya and O.M. Kozhova: Immobilization of Cells of *Dunaliella salina* as a Criterion of Toxic Effect 46

V.A. Groeva: The Effect of Potassium Salts of Iodide and Bromide on Rainbow Trout 50
L.I. Piskunov, A.N. Oshchepkova, S.I. Treyger, S.A. Lyubimova and I.V. Karagonina: Some Ecological Features of Central Ural Reservoirs 55
E.V. Vladimirskaya: Standing Crop and Composition of Populations of Common Antarctic Species of Copepods *Calanus propinquus*, *Calanoides acutus* and *Rhincalanus gigas* in the Lazarev Sea in March 1981 62
Yu.P. Aseyev and I.G. Rubinshteyn: The Distribution of Euphausiids in the Southwest Part of the Indian Ocean in Winter 69
E.V. Solyankin, M.V. Sysoyeva and N.V. Khatskiy: Hydrodynamics and Conditions for Krill Aggregations in the Lazarev Sea 75
V.V. Popkov: Position of the Frontal Zone and the Distribution of Krill Aggregates in the Pacific Sector of the Antarctic 81
V.V. Maslennikov, E.V. Solyankin, V.A. Spiridonov and M.V. Sysoyeva: Investigation into the Origin of *Euphausia superba* Specimens Seen Off South Georgia Island 86
A.N. Kozlov, T.A. Lukasheva, V.V. Maslennikov, V.A. Spiridonov, B.M. Shatokhin and K.I. Yudanov: Hydrographic Conditions, the Distribution and Biological Condition of Antarctic Krill in the Southern Scotia Sea 95

NUMBER 6

I.V. Kryzhanovskii and I.E. Dyachuk: Influence of Selective Harvest on Growth and Genetics of Bream Populations in Kremenchugskii Reservoir . 1
V.A. Tkanchenko and G.K. Parchuk: Feeding of Young-of-the-Year Commercial Fishes in Sasykskii Reservoir and Kiliskaya Delta of the Danube . . . 7
Yu.B. Mezhevikina, N.S. Pechurkin, T.F. Silinskaya and G.V. Andreyeva: Influence of Toxic Substances on the Respiration and Survival Rate of Protozoa 12
E.V. Balushkina: Relationship Between Oxygen Consumption Rates, Body Weight and Temperature in Larval Chironomids 18
I.Kh. Bashmakova: Assessment of the Supply of Assimilatable Organic Matter and Its Degradation Rate in the Waters of the Kiliyskaya Delta of the Danube 26
V.S. Sarviro: Temperature Dependent Respiration Rates of Mature Female *Daphnia longispina* (Crustacea Cladocera) 34
K.S. Al'-Khanun: New Rotifer Species for the Black Sea 39
G.B. Nazarov and V.K. Kuznetsov: Loss of Phosphorus and Sediment Load in Agricultural Drainage Basins 43
G.G. Vinberg: Some Essential Clarifications of Methods for the Study of Animal Growth 46
V.M. Sadyrin: Influence of Temperature on Growth Rate and Diurnal Production of *Sida crystallina* 54
V.V. Chebanova: Characteristics of Active Drift in Chironomids 59
I.A. Skal'skaya: Abundance and Size Composition of *Dreissena* Juveniles from Colonies in Rybinsk Reservoir 66
N.I. Spitskaya and V.E. Kokova: Influence of Culture Conditions on Growth of Rotifers 71
D.P. Marchyulenene and R.F. Dushauskene-Duzh: Influence of Ecological Factors on Radionuclide Accumulation in Aquatic Plants 77
A.I. Bakanov: A Nomogram for Estimating the Required Number of Samples of an Aggregated Distribution 85
Yu.P. Aseyev: Size Structure of Krill Populations and Life Span in the Indian Ocean Sector of the Antarctic 89
R.R. Makarov and M.V. Sysoyeva: Biology and Distribution of *Euphausia superba* in the Lazarev Sea and Adjacent Waters 95
E.Z. Samyshev and A.I. Lushov: Food Ration and Its Balance Values in Antarctic Krill 100
